Timing

There is not an average time each picture is viewed on the screen. It varies per picture, depending on what is in the picture and amount of movement we add to the picture. But if you were to average out the all the pictures-each would be on about 5 to 8 seconds or 50 pictures would be around 6 to 8 minutes, 100 pictures around 10 to 12 minutes, 150 pictures around 12 to 15 minutes. Adding video clips can lengthen those times

Instructions for Pictures for Montage

Put the pictures in the order you want them to appear. If they are all digital rename the files in the order you want them to appear. If you have a combination of digital and printed pictures, number the pictures and then skip the digital one and rename the digital the number it is going to be placed within the printed pictures. If you have video clips on a small piece of paper place a sheet of paper within the pictures where you want the video to appear.

Pictures can be number with post its. If you actually write on the pictures, be sure not to press too hard so it does not show up in scanning. Also do not write with pens that smear and ruin the pictures. Take pictures out of albums and frames. (Call if you can't get out of album and we can give further instructions) Buy large zip lock plastic bags and place pictures in bags. If you are having sections or chapters in video, place pictures in separate bags for each section. Write the number on each bag in the order you want the sections to go.

Titles and Captions-Music-In each bag place a piece of paper with titles you want to introduce the section. If you want captions on certain pictures, write the picture number and then the caption you want placed under picture. Write the song and artist you would like used in this section of pictures.

Photo Books

Photo books can be created with the same pictures or you can include more to go in the book. Pages can be created as collage pages with a number of pictures, or you can pick one or two of your favorite pictures to fill the whole page. Captions can be added to book after pictures are placed on book. Books can be reviewed for editing before they are printed. Please allow 3 to 4 weeks for creating book and printing. If more copies are needed, we can provide a lower price for copies once final approval is made for the book.
